## THREE STRAIGHTS FOR RICHMOND

(Continued From First Page.)

Lloyd held up in the eighth inning, and as Verbut was like a sewing machine, in that he sewed them up so that they might never get out of the bag, the game ended with Danville sending high flies to anybody that cared to use them.

Remembering one failure to cover first base in a game with one of the big league teams, Landgraff kept his eyes skinned for that station, and there never was a time during the game that it was uncovered. He missed Baker at shortstop, but he won't miss him for very long. Baker will be in the game Monday if there is a game, and Shaw will get down to hard practice before he goes in again. His work yesterday showed that he was fast enough, but the lack of practice showed up strong in the errors listed against him.

## JAP LEAGUE WELL HEELED AT LEAST

Yellow Men Have \$300,000 Capital, and Are Backed by Leading Japanese Merchants.

Seattle, Wash., April 23.—With a working capital of more than \$300,000 and articles of incorporation filed, a new baseball league is being formed on the Pacific coast by the Japanese. Headed by Ho, the champion wrestler, who is being backed by leading Japanese merchants of Seattle, Portland and San Francisco, a six-city league is in process of formation, which, when completed and in working order, will provide three games a week. It is now planned to have the teams in the various cities organized and in trim for the opening game on June 1. The schedule is bothering the Orientals not a little, because of the extreme length of the circuit, which will require considerable travelling. By playing three games in the south one week and three games in the north the next week, it is planned to provide a schedule of at least three games. The winning team will be provided with funds to invade the home land to try for the championship of the Japanese race.
